Description:

The photo above shows the activities carried out by M. Auezov South Kazakhstan University to make life easier for the disabled, mothers with children, and socially vulnerable segments of the population.

1. M.Auezov South Kazakhstan University provides ramps for overcoming steps for people with disabilities, people with special needs and maternity care/mothers with baby stroller. There are 7 buildings with ramps: the main building, buildings No. 3, 4, 5, 7, 9. There is also a ramp in the Student dormitory №. 5.

2. Buildings 4 and 8 have an elevators for movement, which is successfully used by both disabled people and mothers with baby stroller on a par with students and staff. These buildings are high-rise, so they have an elevator.

3. Inside the toilets there are handrails (supports) for the disabled, both near the toilet bowls and near the sinks. Available in all buildings on each campus.

4. Walls and vertical surfaces have tactile pictograms indicating the direction of travel or the location of toilets. Available in all buildings on each campus.

5. On the floor in the buildings there is a tactile tile for the visually impaired and the disabled, with drawings of the type "Stripe", "Longitudinal reef", "Cone", "Diagonal". Available in all buildings on each campus.
